The New Edison

"The Phonograph With A Soul"

Because the Edison Co., features Grand Opera Re-
Creations so constantly some people have the idea that
it overlooks the more popular music. Quite otherwise.
It is sorry for the man who can't enjoy a rollicking rag-
time ditty. It believes in democracy in music. And it
supports its belief by producing vast quantities of the
latest hits.

In Edison Grand Opera Re-Creations you receive all
that the ear can give you of the art of the world's great
opera stars. Three million dollars was spent in research
work to perfect an instrument which would be capable
of achieving this effect. But it was three million dol-
lars well spent. For the result is The New Edison "the
phonograph with a soul," the only phonograph which
can meet the tone test, the test of direct comparison
with the living artist's voice or instrument.

It is our honest belief that not nothing in the world
yields larger dividends in pleasure for the sum invested
than the New Edison. To the entire family it brings
all that the ear can give of the art of the world's great-
est singers. And remember, our popular Re-Creations
too, are made with the same exacting insistence upon
perfection which marks our Grand Opera arias.

See the exhibit of Edison period! cabinets now
on display at our store.

Mississippi Farms For Sale.

Attractive farms for sale in Mississippi, the land of
milk and honey, where there is scuds and scuds of
money.

We have some of the finest hay and pasture propo-
sitions that we have ever heard of. In fact these farms
will grow any kind of crop you might want to raise.
The loam land has just enough sand in it to make it
work good, with a red clay subsoil, and is adapted to
most all kinds of crops, such as corn, cotton, red crim-
son and burr clover, wheat, rye, oats, barley, soy beans
and cow peas. And the finest water-melon and truck
growing land that can be found anywhere. My friend
Ed Pate of Jackson county, could raise enough melons
down here to supply two counties as large as Jackson.
Fruits of all kinds grow in abundance on these lands.
Apples, peaches, pears, grapes and berries of all kind.
The Climate conditions are ideal. The best water at
all, coming from artesian wells from 200 to 500 feet
deep and as clear as a crystal.

We now have about 20 families from Tennessee, mostly
Jackson countians, living in this section, and all mak-
ing good money. We are afraid to tell you about all
the good things for fear you wouldn't believe it. It's
a land of milk and honey. we can prove our statement
if you will come to see us.
